**'Improving outcomes for all our pupils
through high quality teaching and learning'**

8th October 2026

Dear parents and carers,

Climate Action Plan parent/carer travel survey

At Hobbs Hill Wood Primary School we are continuing our work on the school's Climate Action Plan. This helps us review progress and identify practical ways to make the school more sustainable.

As part of this work, we will be asking parents and carers to complete a short travel survey each year. Some families may remember completing a similar survey last year. This year's survey is not intended to repeat the same exercise unnecessarily, but to help us understand what has changed since the first review, whether travel patterns are different, and what support or barriers families are experiencing now.

The survey asks how pupils usually travel to and from school, approximate journey distance, and what might help families consider more sustainable travel options where this is realistic.

Please complete the survey using the link below:

[Travel Survey Link – Click Here](#)

The information gathered will help the school build a clearer picture over time and plan future actions. This could include encouraging walking or cycling where appropriate, considering car sharing opportunities, or identifying barriers that may affect travel choices.

We recognise that sustainable travel will not be possible for every family. The purpose of the survey is not to criticise individual choices, but to help the school understand what is realistic and focus on practical improvements.

Please complete the survey by 30th October 2026

Thank you for your support.

Miss S Hunter
